PARMESHWAR
METAL LIMITED

Your Trusted Partner for
High-Quality Copper Rods
Solutions

Your Trusted Partner for High-Quality Copper Rods Solutions

The Company

Parmeshwar Metal Established in 2017 in Dahegam, Gujarat, Parmeshwar Metal was founded by a group of promoters with deep industry knowledge. Driven by a clear vision to become one of the most distinguished manufacturers of Copper Wire Rods, the company has grown exponentially in a short span of time, becoming synonymous with quality and trust. Parmeshwar Metal boasts a world-class integrated production facility, manufacturing and supplying high-quality Copper Wire Rods to customers across Gujarat and other states in India.

This rapid growth and expansion highlight the company's commitment to excellence. Trust, Quality, and Reliability are the cornerstones of Parmeshwar Metal. The company is dedicated to meeting and exceeding the expectations of its vast array of customers. Every relationship is valued, whether with trade partners, customers, or suppliers. This commitment has established Parmeshwar Metal as a reliable and trustworthy entity, capable of overcoming all market challenges.

Vision & Mission

The company is committed to manufacture and supply products of high and reliable quality to meet and exceed the customers' expectation and special needs.

- To keep innovation, excellence, enterprising nature and customer -satisfaction at the hindsight while scaling the heights of success.

The Team & State-of-the-Art Laboratory

A key strength of Parmeshwar Metal is its dedicated team and their exceptional teamwork. The main key person of the team is well-trained in CCR Technology at KoreaTX. The company's commitment to qualified personnel has resulted in assembling an enviable pool of talent from across the industry. By delegating authority to leaders at every level, the company consistently delivers strong and satisfactory results. The zeal, dedication, enthusiasm, and teamwork of our people drive Parmeshwar Metal to challenge limits and consistently strive for excellence. Our plant is equipped with a state-of-the-art laboratory, featuring the latest equipment, such as the 'Bruker Spectro' machine, 'Ultra' oxygen analyzer, conductivity machine, and elongation machine. Every coil is thoroughly tested by these machines, ensuring precision and quality. All tests are conducted by well-trained technicians, guaranteeing the highest standards in our products.

The Infrastructure

It is said that when the foundation is strong, the edifice is stronger. Parmeshwar Metal stands tall on the solid platform of its robust infrastructure facility, located in Dahegam, Gujarat. Our plant is equipped with every technology relevant to the industry, truly making it 'state-of-the-art' in every sense of the word.

The Products

Since its inception, Parmeshwar Metal has adhered to a policy of delivering the finest products and services to all its customers. The company's product range has been developed with meticulous attention to detail, ensuring superior quality. Every effort has been made to enhance our products, reflecting our commitment to excellence and customer satisfaction.

The Quality

By adhering to strict quality standards, demonstrating consistent performance, and focussing on continuous improvement, we have established a robust quality management system that fulfills customer expectations. We pledge to protect the environment and society through safe and industry-friendly policies, driven by visionary leadership and innovative efforts.

Continuous Cast Copper Wire

Electrolytic tough-pitch Copper Rod (Standard Quality)

Standards

ASTM B49 (table 1: UNS number C11040)

Diameter

8mm to 8.2mm (±0.2mm)

Sizes

12.5mm on request

Packing

Wooden Pallet 1.5 x 1.5 m and HDPE Cover

1, 2.2, 2.5, 3, 3.5, & 4 Mt

Cu > 99.90%

O2 100 to 400 ppm

Physical Characteristics

Conductivity	%IACS	>100
Tensile strength	N/mm sq.	210-240
	Kg/mm sq.	21.5-24.5
Elongation	%	>36

Technical Specifications

Copper Type	Unit	ASTM B49-09	PM Typical
